Depth and Desire

06~07 Golden Eagles on mission to “Hutch”

The sign hanging over the lockerroom door defines the mission of every CSI men's basketball team. It simply reads, “Hutch.” The only difference in this year's group of players and the players from previous years are the names. The 2006-07 Golden Eagles are focused on one goal - qualifying for nationals in Hutchinson, Kansas and winning a third national championship.

Second-year head coach Barret Peery returns just one player from last year's Region 18 championship team but has brought in three other players who competed in the Scenic West Athletic Conference as well as four other sophomore transfers who have competed at other colleges across the nation. In addition to the leadership Peery added with the sophomores, he brought in 10 freshmen.

“We have a group of guys that make up a system of interchangeable parts. We should be able to play fast paced because of our depth,” Peery said. “We have very good shooters as well as athleticism.”

While the increased depth over last year's team will be crucial down the stretch, Peery knows that the continuity will be a little slower to come.

“Our talent level one to 15 is much better,” Peery said. “With all the new players, it will take time to understand roles. Over time, our team has a chance to be very, very good.”

At the guard position, Peery will look to returner Derek Lorenzen, Salt Lake transfer Paul Wayne, UTEP transfer Kelvin Davis, and College of Siskiyous transfer Adris DeLeon for experience early. Those three will combine with freshmen newcomers Reggie Guyton, Brad Garrett, DeCarlos Riley and Terry Fields as options at guard.

Inside, Dixie transfers Mo Taukiueva and Travis Bunker will be key. The two combined for 22 points and 13 rebounds per game last season. Kevin Ford, a transfer from New Mexico State and Brandon Stores, a Panola CC transfer, add leadership and experience at the forward position. Those four will be joined by freshmen forwards Artsiom Parakhouski of Minsk, Belarus, Mame Bocar Ba of Dakar, Senegal, Juan Patillo of Las Vegas, Nev. and AJ Wilson from Minneapolis, Minn.

Redshirting for the Golden Eagles this season will be American High School graduates Matthew Ledbetter and Robert Crompton. Both play the guard position.

Early the Golden Eagles will be able to try different combinations on the court as they travel to Dallas for five scrimmages and host Northwest Nazarene University for another scrimmage. CSI, which hosts three men's basketball tournaments

in November, won't play its first Region 18 contest until Dec. 8 in Coeur d'Alene against North Idaho College.

CSI will play every team in the league twice at home and twice on the road.

"The league will be very good," Peery said. "Salt Lake and Snow return very talented players. North Idaho went out and got some great players and CEU might have the most talented point guard in the league."

For the first time in a long time, the Golden Eagles would have to win the Region 18 Tournament and then beat the Region 1 champion in a playoff to qualify for the national tournament. That playoff will be hosted by Salt Lake CC March 13, 2007.

Barret Peery 2nd Season

Barret Peery begins his second year as head coach and his fourth on the sidelines of the Golden Eagle bench.

Peery has been a big part in the Golden Eagles success lately. CSI won the Region 18 Tournament in 2004-05, qualifying for the national tournament. In 2004-05, CSI not only won the Scenic West Athletic Conference and the Region 18 Tournament but placed third at nationals. Last season, he led the Golden Eagles to a 25-10 record, a SWAC title and a Region 18 Championship, earning his third trip to Hutchinson, Kan., in as many tries.

Prior to CSI, Peery was the top assistant at Portland State in 2002-03. He was the recruiting coordinator and in charge of scheduling. He helped recruit the class that had the largest turnaround in NCAA Division I basketball this past season. The team went from 5-22 in 2002-03 to 19-9 in 2004-05.

Peery also coached four years at Southern Utah University. While there, he was the head assistant and recruiting coordinator. He recruited the Mid-Continent Conference player of the year Fred House. Peery helped lead the Thunderbirds to their first-ever NCAA tournament appearance and a 25-6 record.

Before assisting one year at Southern Utah, Snow College and Utah Valley State College, Peery played college basketball at Snow and Southern Utah. Between his freshman and sophomore season at Snow, he served a church mission in Japan. At Southern Utah, Peery helped lead the Thunderbirds to two conference championships. As a senior, he earned academic all-conference honors in the American West Conference.

Peery has worked tirelessly at keeping the tradition of CSI basketball alive through camps, coaches clinics and his community involvement.

Peery, who is originally from Payson, Utah, is married to Tracy. They have a daughter named Kennedy.

Pictured to the right, Barret with his wife Tracy and daughter Kennedy.

Head Coach

"Barret brings the whole package to CSI. He has already made an impact as a coach and will continue to do so. More importantly, he and his family have made an impact in the community. His respect for the tradition of the program is vital to the success of the future for CSI basketball." - Former President Jerry Meyerhoeffer

Steve Gosar begins his second season on the Golden Eagle coaching staff. Gosar, 36, joined the Golden Eagle staff from Portland State University.

"We're very lucky to have a guy with his experience," Peery said. "He's great with kids on and off the court, and he is a tenacious recruiter."

Peery and Gosar worked together four years ago at PSU.

During his time as an assistant at Portland State, Gosar was key to the team's improvement. He helped recruit a class that was ranked by collegeinsider.com as the top recruiting class in the Big Sky. With those recruits, the team earned the distinction of being one of the top three turnaround programs in the country in 2004-05.

The Vikings finished the 2002-03 season 5-22 and improved to 11-16 in 2003-04. In Gosar's last season at PSU, the Vikings posted a 19-9 record, the best ever in the history of the school as a Division I program. Portland State also won the Big Sky Conference regular season title, the school's first men's championship title since becoming a NCAA Division I program. Two players off that team earned conference and national accolades. Will Funn was the NCAA

Division I national assist leader and Seamus Boxley garnered Big Sky Player of the Year honors.

Prior to joining the Vikings, Gosar spent two seasons as a graduate assistant at the University of Wyoming. Those two years, the Cowboys won back-to-back Mountain West Conference Championships, including the schools first outright conference championship in the last 20 years. The 2002 Wyoming team made it to the second round of the NCAA Tournament with a first-round win over Gonzaga.

Originally from Pinedale, Wyo., Gosar played his collegiate ball at Wyoming, earning a bachelor's degree in molecular biology. Gosar recently married Lu Stutzman.

"Steve has very good knowledge of the game and has been successful at both the Division I level and the JC level. He is a vital part of our success and has done a very good job of developing our players. His experience is invaluable both as a recruiter and floor coach. He is a winner and the kids love him." - Barret Peery

Jeff Renegar returns for his second season at CSI where he looks towards a 4th trip to the National Tournament ("Hutch") in as many tries as a junior college assistant. The 2005-06 season ended with CSI winning another SWAC Conference and Regional Championship. CSI was rewarded with their 22nd trip to the National Tournament.

Prior to CSI, Renegar 28, most recently assisted at Yavapai College in 2002-03 and 2003-04. During his time there, the school won two region championships and qualified for the NJCAA National Tournament both years under head coach Brooks Thompson. Thompson played in the NBA and is currently the head coach at the University of Texas at San Antonio. Prior to that, Yavapai hadn't finished higher than 4th in their league in more than 15 years and had only qualified for "Hutch" once in school history. Renegar recruited the 2003-04 region player of the year and NJCAA All-American Bryson Krueger, who went on to play at Arizona State University and

was second on the team in scoring for the 05-06 season. During his time there, Renegar also coached the 2002-03 conference player of the year and NJCAA All-American Larry Owens, who went on to play at Oral Roberts University where in the 2005-06 season he led Oral Roberts to the NCAA tournament. Owens was also a first team all Mid-Continent selection and was named the conference Defensive Player of the Year.

Renegar has coached 17 players that have gone on to sign letters of intent at Division I universities, including 3 NJCAA All-Americans. The last 4 teams he has been a part of as a coach have a combined win-loss record of 105-26.

Renegar played his college ball for Don Sumner at St. Gregorys Junior College and later at Southwest Kansas College.

He earned his bachelor's degree in interdisciplinary studies from Adams State College.

"Jeff is an extremely aggressive recruiter and has a very good understanding of the game. He is very well respected by players and coaches. Jeff works hard every day to make CSI basketball better on the court and off."

- Barret Peery

Brock Nelson
Oakley, Idaho

"Brock's experience in the program is invaluable to our success. He understands me and he understands our program. Brock will be successful at whatever he does." Coach Peery

Adam Wardenburg
Orem, Utah

"Adam is a tremendous asset to our program. He has a good basketball background coming from a coach's family. He understands the game and has had a very strong relationship with me for many years." Coach Peery

CSI Basketball Making the Grade

Our number one goal for student-athletes at the College of Southern Idaho is for them to experience high quality education while participating in and enjoying the challenge of Division I junior college basketball. The ultimate bonus, of course, is graduating from a quality institution that has prepared them for a career after athletics.

The CSI Athletic Department is committed to providing students all the support and encouragement they need to find success both in academics and athletics. The college provides unlimited resources through its student services to assist student-athletes in the classroom.

Students will enjoy the benefits of attending a private study table for basketball, as well as the use of the Academic Development Center, and tutoring is provided as needed. Most importantly, student-athletes have the support and friendship of the coaches, their teammates and their academic advisor. The best of everything is possible at the College of Southern Idaho.

The Legacies of our Tradition

Eddie Sutton

1966-1967 33-4, National AAU Tournament

1967-1968 24-6

1968-1969 27-4

Southern Idaho's first head coach. Compiled an 84-14 record at CSI. After coaching here, Sutton made the move to the NCAA Division I level. Sutton has been named National Coach of the Year four times and conference coach of the year seven times. He is the only coach in NCAA history to lead four different schools to the NCAA Tournament. Former head coach at Oklahoma State University. Inducted into the CSI Hall of Fame on Dec. 12, 2000.

At the College of Southern Idaho, winning is expected. Like the rich history of its six sports programs, championships are a tradition.

Together, the men's and women's teams have won 16 national titles and have, arguably, the most successful overall athletic program in the National Junior College Athletic Association and the National Intercollegiate Rodeo Association.

The Golden Eagle men have won the following team titles:

Sport	Conference	National
Basketball	24	2
Baseball	13	1
Rodeo	23	3

The Golden Eagle women have won the following team titles:

Sport	Conference	National
Volleyball	11	8
Basketball	5	0
Softball	First Year	First Year

The Golden Eagle combined cross country team won two NJCAA national titles before the program was eliminated in 2001.

CSI ATHLETICS

IC SUCCESS

The CSI Gymnasium is home to the eight-time national championship volleyball team and the men's and women's basketball teams. The gym holds 3,500 people.

The CSI Gymnasium also has a media room with state of the art equipment for coaches and players to break down game film or set strategies for upcoming games.

Keeping our athletes healthy and in the game is CSI's goal. The Golden Eagles have a NATA (National Athletic Trainers Association) certified trainer and training room to help athletes prevent or treat injuries.

With a trained professional and a great weight room facility, CSI athletes can get the best strength and conditioning training they need to be competitive regionally and nationally.

Just last year, CSI added a student recreation center that houses a basketball/volleyball court as well as a three-lane track, student weight room, cardio room, spinning room and yoga/Judo room.

"We challenge anyone to find a better community college anywhere in the nation."

-Twin Falls General Information Guide, Chamber of Commerce.

THE CSI

"The College of Southern Idaho is the pulse of the Magic Valley in more ways than one. Aside from being the fastest-growing institution of higher education in Idaho, CSI adds to community life through its many events, programs and activities. Students, residents and visitors all benefit from such CSI attractions as the new campus library and the Herrett Center for the Arts and Sciences, home of the world class Faulkner Planetarium."

-Twin Falls General Information Guide, Chamber of Commerce.

The College of Southern Idaho is one of the most beautifully landscaped campuses in the country. It is located on more than 300 acres of lush land. The focal point of the campus is the carillon tower, which musically marks each hour of the day.

The two-year college offers more than 70 academic programs and 40 technical programs. Of the 7,500 students, 65 percent receive some form of financial aid. CSI awards nearly \$800,000 annually in scholarships to talented students.

The average class size is less than 22 students, which gives CSI students the opportunity to receive a more personalized education.

The college was established in 1964, and is located in Twin Falls, population 35,000.

CSI has transfer agreements with Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, Utah State University, Brigham Young University and Montana State University-Northern. In addition, most colleges and universities across the nation will work with CSI in making the transfer of credits as easy as possible.

Shoshone Falls

TWIN FALLS &

In 1974, daredevil Evel Knievel mesmerized the world with his attempted rocket-powered motorcycle leap across the Snake River Canyon near Twin Falls. Not far up the Snake, Shoshone Falls takes a 212-foot drop into the record books, with a plunge nearly 40 feet higher than the famous falls at Niagara.

In fact, no matter what your game - golfing, fishing, bird watching, bicycling, paragliding, photographing, skiing or shopping, you can pursue it in South Central Idaho amid landscapes that will linger long in your memory.

Where else could you snow ski, golf or fish in the same day within an hour's drive or less?

It may seem that a city the size of 35,000 is small. But the business community is much larger than one would expect to find in a hometown community such as this. That's because Twin Falls is the center of commerce, medical care, entertainment and education for nearly 225,000 residents of South Central Idaho and northern Nevada.

The cascading waters at Shoshone Falls bring tourists by the thousands. We play golf and tennis on superb facilities, fish for a variety of catches, soak in the hot springs, kayak and raft the whitewater and water ski. We go to fairs, rodeos and concerts and watch stock car racing. The arts abound here, too, from theater to dance to painting to music.

Twin Falls really is a hometown environment with bigtown options.

Jerry Beck

Gerald L. Beck began his career at the College of Southern Idaho in 1975 and became president of the college in 2005. His many titles at the college include Instructor, Coordinator of Trade and Industry Programs, Dean of Continuing Education/Summer School, Vice President of Instruction, and Executive Vice President/Chief Academic Officer.

Dr. Beck is an Idaho native. He received his bachelor's degree in Technical Education, his master's degree in Teacher Education, and his Ed. D. in Adult Education from the University of Idaho. He completed his post doctoral at Harvard University Institute for Educational Management.

In addition to his duties at the college, Dr. Beck is a member of the Twin Falls Rotary Club, and is a board member of the State Workforce Development Council appointed by the Governor. He serves as a board member on many local organizations including Southern Idaho Economic Development Organization, Region IV Development Association and Magic Valley Regional Medical Center. He is past president of the Idaho Association of Private Industry Councils.

Dr. Beck and his wife, Barbara, have three adult children and three grandchildren. He attributes much of his success to the opportunities provided by the college and the support from his family and co-workers.

Golden Eagle Booster Club

The College of Southern Idaho Athletic Department and the CSI Golden Eagle Booster club is now celebrating 40 years together. Formed in 1966, the booster club was organized to raise funds for all CSI student-athletes and promote CSI athletics. The athletic competition you are about to enjoy tonight has benefited from the long-standing commitment by the many faithful booster members who donate generously each year.

Many of the student-athletes you see on campus today have received scholarship money generated by the CSI Golden Eagle Booster Club. Memberships in the booster club are the main source of revenue CSI receives for student-athlete scholarships. By joining the booster club, individuals have a direct impact on the quality of student-athletes the college can attract. Members have a unique opportunity to develop friendships, and long-lasting relationships, and know that their financial support has helped a young person obtain a college degree.

If you're a fan of CSI athletics, your support can be expressed by joining the CSI Golden Eagle Booster club for the 2006-2007 season. Last year the booster club raised more than \$100,000 for the scholarship fund. We need your help. Stop by the Booster table to see how easy it is to join in with the best athletic department in the nation. Members enjoy invitations to the booster club luncheons, email updates, discounts on concession items and free entry into post-game functions.

We're looking forward to welcoming you as a new booster member and seeing you at our next booster club function. GO EAGLES!!!!

Ronald McDonald House

McDonald's, locally owned and operated by Bill and Donna Kyle in Twin Falls, Burley and Jerome sponsors the CSI Golden Eagles and the McSlam-n-Jam. The money pledged for every dunk during home Golden Eagle basketball games is split between CSI Athletics and the Ronald McDonald House.

The Reason

When a child becomes seriously ill, the whole family suffers, particularly if the child must be hospitalized or receive outpatient treatment far away from home for extended periods of time.

To be with their child, parents often sleep on uncomfortable chairs or cots, or bear the expense and impersonal atmosphere of a hotel room. At a time when they want all their strength available for their child, the simple demands of everyday life can seem overwhelming.

For these families, Ronald McDonald House offers a refuge from the hospital, a home-away-from-home, where they can have a room of their own, a comfortable bed, kitchen and laundry facilities, toys for the kids, and a cup of hot coffee.

Ronald McDonald House

For the child, it's knowing that mom and dad are close by, in a good place. It's having a comforting, peaceful place to go from the hospital.

For a brother or sister who cannot be there, it's knowing that other family members are safe while away in a strange city.

For the parents in the House, it's knowing that they are not alone, that others have gone through similar situations and survived. It's new parents getting practical advice from "veterans." It's people drawing hope and strength from late-night conversations in corridors and kitchens, sharing experiences that can be difficult for family and friends back home to fully understand.

And, it's a place to treasure every moment of having a child "home," even if for just a short time.

For board members and volunteers, who give of their time, money, and skills, it's knowing that what they do really helps.

How The House Operates

Each Ronald McDonald House is unique, created by a team of local citizens to meet the needs of their community. The House is owned and operated by the local not-for-profit organization created by these citizens.

Local McDonald's restaurants become involved in initial fundraising once several key elements are present: medical advisors from a hospital with a need for such a House; a parent organization comprised of people whose children have been treated or are being treated at the same hospital; and other interested and concerned volunteers.

To varying degrees, all groups participate in planning, construction, furnishing, building community awareness, securing goods and services, and ongoing House operations. Other local and national companies also volunteer their support through material donations and monetary contributions.

Families using the House donate \$5 to \$15 per day, if they can afford it. These revenues pay for part of the costs of continuing House operations.

How It Began

The first Ronald McDonald House opened in Philadelphia in 1974 as the result of the perseverance and dedication of Fred Hill, then a Philadelphia Eagles football player.

Today, through similar efforts by other groups of dedicated individuals, Ronald McDonald House provides temporary housing for more than 350,000 people a year in facilities throughout the United States; Canada; Australia; Amsterdam, Netherlands; Geissen, West Germany.

McDonald's Corporation assists in increasing public awareness and in providing start-up funding for the new Houses. The local not-for-profit organization operating the House can qualify for a \$25,000 grant from Ronald McDonald's Children's Charities.

Most importantly, it is the time and services of local volunteers and the local contributions of money and materials that make it possible for the Ronald McDonald Houses to be open and operating.

Assisting in these efforts, McDonald's restaurant franchisees, holding individual promotions around the country, have raised more than \$25 million for the Ronald McDonald Houses and the families they serve.

If you have questions about the national Ronald McDonald House program or wish to contact a local Ronald McDonald House regarding services, activities, volunteer work or tax deductible donations, write or call: Ronald McDonald House, 101 Wam Spring Ave., Boise, ID 83712.
