## 2006-07 Women's Basketball Media Guide

About the Cover: Five returning sophomores are focused on getting CSI back to the national tournament in Kansas. Two years ago, the Golden Eagles accomplished what no other Region 18 team has done - play in the national championship. This group is hungry to return.

This publication was produced by Karen Baumert, CSI sports information director. Pomerelle Portrait Design Studios did the photography for the cover as well as the mug shots throughout the publication and the team photo on page 3. Graphic design and layout for the cover and pages 34-41 were done by Tereasa L. Bendele. Vector graphics on pages 1, 22, 23, 48 and 49 were done by student intern Dennis Denton.

# One Team Together

## 06-07 Golden Eagles set sights on Salina

Most coaches would sit back and smile at the thought of returning four starters. CSI head coach Randy Rogers looks at things a little differently.

“I never want to be just satisfied,” Rogers said. “And I never want our players to settle for being good when they can be great.”

That drive led Rogers to recruit more height and more depth this season in hopes of returning to a place no Region 18 team had ever been until two years ago when Rogers led the Golden Eagles into the NJCAA National Championship game in Salina, Kan.

“We have good sophomore leadership,” Rogers said. “We’re balanced inside and outside now. Teams can’t just focus on our outside game this season. I think we will have the ability to score and put up a lot of points.”

The offense and defense starts at the top with the point guard and the Golden Eagles return one of the best in the country. Region 18 Player of the Year and first-team All-American Maria Moore will trigger the offense. The 5-5 guard averaged 19 points and 8.0 rebounds per game for CSI last season and with the added experience will definitely be key to the Golden Eagles success. Joining her at the guard

position will be returning 2-guard Brittany Moore. Moore was deadly from the 3-point line last season, leading the conference in 3-point field goal percentage as well as 3-pointers per game. But that wasn’t enough offense for Rogers.

He added outside threats Maylene Ornelas (5-6 point guard), Daraysha Kennedy (5-5 guard), Amy Higbee (5-8 guard), Kali Hess (5-8 guard) and Tera Tremayne (5-7 guard). Tremayne knocked down 246 high school career 3-pointers.

Rogers will look to returning starter Amy Bratvold at the 3-guard position. Already an outside threat, the 6-foot Bratvold worked hard on her mid-range shot in the off-season and should be tough to shut down. Last season her consistency gave the Golden Eagles 9 points and 6 rebounds per game. Look for those numbers to increase even more this year.

Returning posts Alexis Tucker (5-11) and Ashley Thompson (5-10) spent much of last spring on versatility. If Rogers decides to go with a big lineup, they will be able to play some at the 3-

guard spot. If he wants to go quick and small, they can play the power forward position. Thompson averaged 6 points and 7 rebounds per game as a starter last season. Tucker added 3 rebounds and 3 points per game.

The one ingredient Rogers wanted more of than he had last season was height. The fifth-year coach got it.

Posts Eva Ivanova (6-3), Anita Burdick (6-3) and Jennifer Kioa (6-4) will give the Golden Eagle guards plenty of options inside.

“I think we have depth at every position,” Rogers said. “We will be able to go big or small this year.”

That depth will be crucial in league play this season. Salt Lake CC, which won the Region 18 title after placing third during the regular season, returns seven players.

“To win, you are going to have to beat them. I think the winner of the league has to go through Salt Lake,” Rogers said. “North Idaho is always good and this year will be no different. Snow is better and CEU always brings a solid team into the mix. I don’t know much about Colorado NW but they have a new coach and I’m sure they will be much improved.”

## Randy Rogers 5th Season

Never settling for mediocre, Randy Rogers brought a relentless pursuit of perfection to CSI when he took the job four years ago. It has paid off. In his second season, Rogers brought home a regular-season championship, Region 18 Tournament championship and a NJCAA consolation championship. The next year, he did even better. The Golden Eagles, not only won the Scenic West Athletic Conference title, the Region 18 Tournament title and ended the season ranked No. 1 in the NJCAA poll, CSI brought home runner-up hardware at the national tournament, finishing higher than any Region 18 team has ever finished.

In 2005-06, he posted a 25-7 record, notching his 100th college win in just four years. An intense coach, Rogers focuses

on teaching fundamentals, playing aggressive hard-nosed defense and running when at all possible.

"My offensive philosophy is to take the first, best available shot," Rogers said. "Our defense will create offense. We will push the ball every single possession. I also want my team to be in the very best shape. I don't want to lose a game by a factor that can be taken care of before hand."

Rogers said he likes to run man-to-man defense primarily but will throw in various zone traps - half court and full court.

Rogers, who came to CSI from Spring Creek High School, was named Nevada Prep Coach of the Year for all divisions in 2001-02.

He holds a 50-10 division record from 1997 to 2002 and a 92-49 overall record. He qualified for state all five years, earning runner-up titles in 1999 and 2001. He was named AAA Division I Coach of the Year in 1998, 1999, 2000 and 2001 as well as 1999 AAA Nevada Basketball Coach of the Year. Rogers earned his bachelor's degree from Utah State University in physical education. Prior to attending Utah State, he attended Salt Lake CC and Dixie College.

## Head Coach

**Coached the first Region 18 women's team to play in the NJCAA National Championship game.**

**Golden Eagle Basketball**

## Merrilee Udy 2nd Year

Merrilee Udy begins her second season as a CSI assistant coach. The talented player turned coach has brought experience and knowledge to the court.

Udy played two seasons at Ricks College before finishing her college career at Idaho State University.

At Ricks, she started on a team that qualified for nationals in 2002, the same year she earned Region 18 all-tournament honors as well as led the team as the co-captain. While there, she averaged 4.3 assists per game and 7.6 points per game.

At ISU, she also had a big impact, leading the Bengals to an NIT appearance in 2004. Her on-the-court performance is reflected in the ISU record books.

Udy ranks third all time for career assists per game and first in career assist/turnover ratio. She is the all-time leader for

single-season assist/turnover ratio. After playing for the Bengals, Udy graduated from ISU with a bachelor's degree in secondary education. She is currently working on her master's degree in education administration.

Udy, who was born and raised in American Falls, played her high school ball at American Falls High School. She led them to three third-place finishes at state and a state championship her senior year. That year she garnered state player of the year honors.

*"Merrilee is intelligent and hard working. She is very knowledgeable about the game. She is intense, and does the little things that will make our program successful." - Randy Rogers*

## #3

## CSI Basketball Making the Grade

Our number one goal for student-athletes at the College of Southern Idaho is for them to experience high quality education while participating in and enjoying the challenge of Division I junior college basketball. The ultimate bonus, of course, is graduating from a quality institution that has prepared them for a career after athletics.

The CSI Athletic Department is committed to providing students all the support and encouragement they need to find success both in academics and athletics. The college provides unlimited resources through its student services to assist student-athletes in the classroom.

Students will enjoy the benefits of attending a private study table for basketball, as well as the use of the Academic Development Center, and tutoring is provided as needed. Most importantly, student-athletes have the support and friendship of the coaches, their teammates and their academic advisor. The best of everything is possible at the College of Southern Idaho.

## Jerry Beck

Gerald L. Beck began his career at the College of Southern Idaho in 1975 and became president of the college in 2005. His many titles at the college include Instructor, Coordinator of Trade and Industry Programs, Dean of Continuing Education/Summer School, Vice President of Instruction, and Executive Vice President/Chief Academic Officer.

Dr. Beck is an Idaho native. He received his bachelor's degree in Technical Education, his master's degree in Teacher Education, and his Ed. D. in Adult Education from the University of Idaho. He completed his post doctoral at Harvard University Institute for Educational Management.

In addition to his duties at the college, Dr. Beck is a member of the Twin Falls Rotary Club, and is a board member of the State Workforce Development Council appointed by the Governor. He serves as a board member on many local organizations including Southern Idaho Economic Development Organization, Region IV Development Association and Magic Valley Regional Medical Center. He is past president of the Idaho Association of Private Industry Councils.

Dr. Beck and his wife, Barbara, have three adult children and three grandchildren. He attributes much of his success to the opportunities provided by the college and the support from his family and co-workers.

At the College of Southern Idaho, winning is expected. Like the rich history of its six sports programs, championships are a tradition.

Together, the men's and women's teams have won 16 national titles and have, arguably, the most successful overall athletic program in the National Junior College Athletic Association and the National Intercollegiate Rodeo Association.

The Golden Eagle men have won the following team titles:

| Sport      | Conference | National |
|------------|------------|----------|
| Basketball | 24         | 2        |
| Baseball   | 13         | 1        |
| Rodeo      | 23         | 3        |

The Golden Eagle women have won the following team titles:

| Sport      | Conference | National   |
|------------|------------|------------|
| Volleyball | 11         | 8          |
| Basketball | 5          | 0          |
| Softball   | First Year | First Year |

The Golden Eagle combined cross country team won two NJCAA national titles before the program was eliminated in 2001.

# CSI ATHLETIC

# IC SUCCESS

The CSI Gymnasium is home to the eight-time national championship volleyball team and the men's and women's basketball teams. The gym holds 3,500 people.

The CSI Gymnasium also has a media room with state of the art equipment for coaches and players to break down game film or set strategies for upcoming games.

Keeping our athletes healthy and in the game is CSI's goal. The Golden Eagles have a NATA (National Athletic Trainers Association) certified trainer and training room to help athletes prevent or treat injuries.

With a trained professional and a great weight room facility, CSI athletes can get the best strength and conditioning training they need to be competitive regionally and nationally.

Just last year, CSI added a student recreation center that houses a basketball/volleyball court as well as a three-lane track, student weight room, cardio room, spinning room and yoga/Judo room.

# THE CSI

*"The College of Southern Idaho is the pulse of the Magic Valley in more ways than one. Aside from being the fastest-growing institution of higher education in Idaho, CSI adds to community life through its many events, programs and activities. Students, residents and visitors all benefit from such CSI attractions as the new campus library and the Herrett Center for the Arts and Sciences, home of the world class Faulkner Planetarium."*

The College of Southern Idaho is one of the most beautifully landscaped campuses in the country. It is located on more than 300 acres of lush land. The focal point of the campus is the carillon tower, which musically marks each hour of the day.

The two-year college offers more than 70 academic programs and 40 technical programs. Of the 7,500 students, 65 percent receive some form of financial aid. CSI awards nearly \$800,000 annually in scholarships to talented students.

The average class size is less than 22 students, which gives CSI students the opportunity to receive a more personalized education.

The college was established in 1964, and is located in Twin Falls, population 35,000.

CSI has transfer agreements with Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, Utah State University, Brigham Young University and Montana State University-Northern. In addition, most colleges and universities across the nation will work with CSI in making the transfer of credits as easy as possible.

# TWIN FALLS &

In 1974, daredevil Evel Knievel mesmerized the world with his attempted rocket-powered motorcycle leap across the Snake River Canyon near Twin Falls. Not far up the Snake, Shoshone Falls takes a 212-foot drop into the record books, with a plunge nearly 40 feet higher than the famous falls at Niagara.

In fact, no matter what your game - golfing, fishing, bird watching, bicycling, paragliding, photographing, skiing or shopping, you can pursue it in South Central Idaho amid landscapes that will linger long in your memory.

Where else could you snow ski, golf or fish in the same day within an hour's drive or less?

It may seem that a city the size of 35,000 is small. But the business community is much larger than one would expect to find in a hometown community such as this. That's because Twin Falls is the center of commerce, medical care, entertainment and education for nearly 225,000 residents of South Central Idaho and northern Nevada.

The cascading waters at Shoshone Falls bring tourists by the thousands. We play golf and tennis on superb facilities, fish for a variety of catches, soak in the hot springs, kayak and raft the whitewater and water ski. We go to fairs, rodeos and concerts and watch stock car racing. The arts abound here, too, from theater to dance to painting to music.

Twin Falls really is a hometown environment with bigtown options.

# Golden Eagle Booster Club

The College of Southern Idaho Athletic Department and the CSI Golden Eagle Booster club is now celebrating 40 years together. Formed in 1966, the booster club was organized to raise funds for all CSI student-athletes and promote CSI athletics. The athletic competition you are about to enjoy tonight has benefited from the long-standing commitment by the many faithful booster members who donate generously each year.

Many of the student-athletes you see on campus today have received scholarship money generated by the CSI Golden Eagle Booster Club. Memberships in the booster club are the main source of revenue CSI receives for student-athlete scholarships. By joining the booster club, individuals have a direct impact on the quality of student-athletes the college can attract. Members have a unique opportunity to develop friendships, and long-lasting relationships, and know that their financial support has helped a young person obtain a college degree.

If you're a fan of CSI athletics, your support can be expressed by joining the CSI Golden Eagle Booster club for the 2006-2007 season. Last year the booster club raised more than \$100,000 for the scholarship fund. We need your help. Stop by the Booster table to see how easy it is to join in with the best athletic department in the nation. Members enjoy invitations to the booster club luncheons, email updates, discounts on concession items and free entry into post-game functions.

We're looking forward to welcoming you as a new booster member and seeing you at our next booster club function. GO EAGLES!!!!

# Ronald McDonald House

McDonald's, locally owned and operated by Bill and Donna Kyle in Twin Falls, Burley and Jerome sponsors the CSI Golden Eagles and the McSlam-n-Jam. The money pledged for every dunk during home Golden Eagle basketball games is split between CSI Athletics and the Ronald McDonald House.

## The Reason

When a child becomes seriously ill, the whole family suffers, particularly if the child must be hospitalized or receive outpatient treatment far away from home for extended periods of time.

To be with their child, parents often sleep on uncomfortable chairs or cots, or bear the expense and impersonal atmosphere of a hotel room. At a time when they want all their strength available for their child, the simple demands of everyday life can seem overwhelming.

For these families, Ronald McDonald House offers a refuge from the hospital, a home-away-from-home, where they can have a room of their own, a comfortable bed, kitchen and laundry facilities, toys for the kids, and a cup of hot coffee.

## Ronald McDonald House

For the child, it's knowing that mom and dad are close by, in a good place. It's having a comforting, peaceful place to go from the hospital.

For a brother or sister who cannot be there, it's knowing that other family members are safe while away in a strange city.

For the parents in the House, it's knowing that they are not alone, that others have gone through similar situations and survived. It's new parents getting practical advice from "veterans." It's people drawing hope and strength from late-night conversations in corridors and kitchens, sharing experiences that can be difficult for family and friends back home to fully understand.

And, it's a place to treasure every moment of having a child "home," even if for just a short time.

For board members and volunteers, who give of their time, money, and skills, it's knowing that what they do really helps.

## How The House Operates

Each Ronald McDonald House is unique, created by a team of local citizens to meet the needs of their community. The House is owned and operated by the local not-for-profit organization created by these citizens.

Local McDonald's restaurants become involved in initial fundraising once several key elements are present: medical advisors from a hospital with a need for such a House; a parent organization comprised of people whose children have been treated or are being treated at the same hospital; and other interested and concerned volunteers.

To varying degrees, all groups participate in planning, construction, furnishing, building community awareness, securing goods and services, and ongoing House operations. Other local and national companies also volunteer their support through material donations and monetary contributions.

Families using the House donate \$5 to \$15 per day, if they can afford it. These revenues pay for part of the costs of continuing House operations.

## How It Began

The first Ronald McDonald House opened in Philadelphia in 1974 as the result of the perseverance and dedication of Fred Hill, then a Philadelphia Eagles football player.

Today, through similar efforts by other groups of dedicated individuals, Ronald McDonald House provides temporary housing for more than 350,000 people a year in facilities throughout the United States; Canada; Australia; Amsterdam, Netherlands; Geissen, West Germany.

McDonald's Corporation assists in increasing public awareness and in providing start-up funding for the new Houses. The local not-for-profit organization operating the House can qualify for \$25,000 grant from Ronald McDonald's Children's Charities.

Most importantly, it is the time and services of local volunteers and the local contributions of money and materials that make it possible for the Ronald McDonald Houses to be open and operating.

Assisting in these efforts, McDonald's restaurant franchisees, holding individual promotions around the country, have raised more than \$25 million for the Ronald McDonald Houses and the families they serve.

If you have questions about the national Ronald McDonald House program or wish to contact a local Ronald McDonald House regarding services, activities, volunteer work or tax deductible donations, write or call: Ronald McDonald House, 101 Warm Spring Ave., Boise, ID 83712.
